## Media Kit

# green lodging news®

the lodging industry's leading environmental news source

**Dear lodging industry supplier:**

Hasek Communications, Odessa, Fla., is the publisher of Green Lodging News—the lodging industry's first electronic newsletter devoted solely to environment-related issues that impact profitability. The Monday e-newsletter that reaches 5,000+ is delivered to hotel owners, managers, executives, front-line employees, vendors, designers, architects, students, consultants and others throughout the industry. The newsletter has a corresponding website—[www.greenlodgingnews.com](http://www.greenlodgingnews.com)—that is updated on a daily basis. This media kit reflects a redesigned website with, in some cases, new ad sizes. The website currently attracts from 26,000 to 32,000 unique visitors monthly. Published on Wednesdays is an e-blast for vendors called Green Supplier Spotlight. It reaches the same target audience as the newsletter. Introduced in 2016 and set to continue in 2017 is the Green Lodging Survey, the planet's premier survey dedicated to sustainable lodging practices. The survey is conducted in collaboration with Greenview.

Green Lodging News covers the hottest issues impacting hotel operations in the following areas: energy management, HVAC, waste management, design, cleaning and maintenance, water conservation, lighting, appliances, green design and more. In addition to covering news events, Green Lodging News helps link buyers and sellers in a virtual green marketplace. Sponsorship opportunities are available only to those companies that offer products and services that enhance profitability through the wise use of energy and other natural resources. This qualification step makes Green Lodging News unique.

Green Lodging News is published and edited by Glenn Hasek, president of Hasek Communications. Hasek has more than 22 years of hospitality industry experience. He was one of the first writers in the industry to cover the environment on a consistent basis while working in several editorial positions with Hotel & Motel Management magazine.

Because Green Lodging News is a free publication, its success will depend on the amount of advertising it generates. On the following pages you will find detailed information that explains the à la carte menu of advertising options. Please give me a call after you have had a chance to look over the sponsorship/advertising information. I look forward to speaking with you soon.

Sincerely,

Glenn Hasek, Editor & Publisher

## Why Partner with Green Lodging News?

- Green Lodging News is published and edited by Glenn Hasek, a writer and consultant with more than 22 years of lodging industry experience—7.5 as an editor with Hotel & Motel Management magazine and more than 15 years as an industry consultant. Hasek first wrote about environment-related industry issues in 1991.
- Green Lodging News is the lodging industry's only website and blog to cover environment-related topics on a daily basis.
- The e-mail-based Green Lodging News newsletter is the lodging industry's only newsletter to cover environment-related topics on a weekly basis.
- Green Lodging News is operations oriented. Its primary goal is to provide hotel owners and operators with the knowledge they need to save money through wise (green) product and service selection.
- While Green Lodging News' intent is to be a for-profit publication, its goal is also to provide a service to the industry—to become a “go to” place for news and valuable information that encourages smart and responsible business practices.
- You will become part of a select group of companies that share the same goals and interests.
- By advertising in Green Lodging News, your company will have the opportunity to brand itself as one with a concern for the environment and sustainability—a significant public relations and marketing opportunity. Your company will also connect with hoteliers and others who want to buy your types of products.
- By becoming a Founding Sponsor, your company will have the opportunity to get discounted advertising rates and packages and benefit from logo placement on future Green Lodging News promotional materials.
- Green Lodging News is an affordable option for businesses that want to reach a highly targeted audience.
- Drive traffic to your website. Unlike a print publication, which cannot truly tell you how many persons have seen your ad, Green Lodging can tell you exactly how many ad impressions and click-throughs your ad has had.
- Green Lodging News is a gathering place for like-minded individuals who wish to impact the lodging industry and the environment in a positive way (whether operators, suppliers, academicians, students, etc.). This is done through online discussion—guest columns, blog, Twitter, Facebook, etc.
- The growing market for green products, escalating resource prices, increasing concerns about chemical sensitivities, air quality, and the desire to cut costs make the timing right.

The Green Lodging News website offers two different video locations. The first is the premium spot located on the home page. This spot is available monthly on a first come/first served basis for a rate of \$500 (net). The second advertising location is the Vendor Videos landing page where those vendors purchasing first will have their videos listed highest on the page. For example, the first company to buy a spot will be listed highest, the second company to purchase a spot will be listed second, etc. Spots on this page will be sold on an annual basis. The rate: \$350 (net).

Highlight your product or service's uniqueness. Also highlight your company's strengths. Build a compelling case for your product or service. Explain the value in doing business with your company. Don't be afraid to be different or even humorous.

# green lodging survey

global hotel trends and innovation in sustainability

**The Green Lodging Survey** is the lodging industry's annual exercise to assess and catalyze green innovation, best practices, and awareness regarding the state of sustainability across hotels worldwide. The Green Lodging Survey is powered by **Greenview**, a leader in advancing hotel sustainability, and managed by **Green Lodging News**, lodging's leading environmental news source.

## Goals of the Green Lodging Survey:

- Identify best practices in the industry that more hotels can benefit from
- Discover innovative efforts by hotels that should be recognized and celebrated
- Determine what is trending in hotel sustainability each year and over time
- Increase awareness of the performance of individual facilities and the industry as a whole
- Create a platform for discussion and spreading of innovation among hotels and their peers, suppliers and customers globally
- Create a mechanism for tracking continuous improvement
- Assist hotels in consolidating relevant sustainability information to provide customers

### The Survey:

Each year we devise a survey of about 100 questions covering the latest in operational practices, facility attributes, and outreach programs to conserve resources, reduce carbon emissions, increase guest experience, and make positive community impact. There is no cost to participate in the Green Lodging Survey. Hotels participate by responding to the survey via an online portal platform where work can be saved and answers easily can be updated for the next year's survey. In 2016, year one of the survey, data was collected from more than 2,000 properties covering 40 countries worldwide. In year two there will be up to 3,000 participating hotels. Subsequent studies are intended for an annual response of 5,000 + .

### The Trends Report:

We analyze the results with general trends and highlight exemplary practices and innovations that stand out, serving as a guidepost for the industry and especially the survey participants.

### The Benchmarking Report:

We prepare a compare report, confidential to each participant, to serve as a yardstick for a hotel to understand the status of each specific practice within the general participant universe.

### Distribution and Press:

Participants and reach will stem from databases held by Green Lodging News, Greenview's network, survey partners, and a network of hotel companies, event organizers, destinations, and industry associations.

The report will be promoted throughout the year on the Green Lodging News website (over 30,000 unique monthly visitors), in the Green Lodging News weekly e-newsletter, on the Greenview website, by survey partners and sponsors, through other hotel trade publications, and through such well-known press release distribution services as Hotel-Online, Hotel News Resource, and Hospitality Net. Additionally, the results will be presented throughout the year at various industry conferences and roundtables, and sent personally to corporate responsibility and sustainability executives at all major brands. The report will be pushed via e-mail to the more than 5,000 opt-in subscribers of Green Lodging News and to tens of thousands of additional hoteliers through media and other partners and sponsors. Participating hotels also will have an opportunity to receive recognition in the published report, press releases, and other external communications.

### 2017 Timeline:

The survey will go live on June 1, 2017. The report will be published in November 2017.

### The Survey Business Model:

The project will be funded by key sponsors at four levels: \$15,000 (Platinum), \$10,000 (Gold), \$5,000 (Silver) and \$2,500 (Bronze). ***Sponsors will have to demonstrate eligibility by providing a product or service that supports hotel sustainability in some form.***
