The Erwyn Dispenser

We at Erwyn have long felt the biggest downside to dispensers, except for the fact that not all are tamper resistant, was the dispenser units themselves!

*Bulky, heavy, institutional looking designs seemed the only available option that wasn't wildly expensive. So when we decided to design our own, we knew it had to be affordable as well as **sleek, safe & unseen**.*

*Featured Amenity Collection: My Earth:
Garden of Eden*

Introducing the Erwyn Dispenser. The dispenser that makes the bottles the star of the show.

- Single, Double & Triple units available.
- High quality 18/8 Stainless Steel construction
- Tamper resistant design
- Great price/ Great Value
- No waste, no recycling
- Significant product cost reduction
- 12 oz Capacity per bottle
- Refillable as needed
- Currently aailable in four (4) Erwyn Personal Care Amenity collections; Bei Capelli, My Earth, Revolve & Drift.

The Erwyn Dispenser

Step 3:

Erwyn's dispenser program is unique because customers have the choice of whether to refill the 12 oz. bottles using our bulk gallon liquids or simply replacing and recycling the 12 oz. bottles as needed.

If you are interested in a refillable solution, decide how many 12 oz. bottles you need for your property. (Erwyn recommends buying 2 empty printed bottles for each liquid type so that refilling can take place in a separate controlled environment.) If you are interested in a non-refillable solution, order additional 12 oz. bottles as needed.

12 oz. Bottles are sold separately and shipped in case packs of 24 pieces with a secure cap.

Pumps!

Step 4:

Determine how many pumps you need

- Erwyn suggests ordering 1 pump for every liquid type per room with a case or two attic stock.

The Erwyn Dispenser Pump

Pumps are sold separately and in case packs of 24 pcs.

Refillable Solution

Step 5:

If you are interested in a refillable solution, select your fill

- Order gallons of bulk liquid to refill decorated bottles.
- Pumps available and sold separately.

BULK LIQUIDS

Currently Erwyn offers bulk gallon containers of four (4) of our most popular lines:

- My Earth
- Bei Capelli
- Revolve
- Drift

*** Stay tuned as new lines will become available shortly!

Monitor how much liquid remains in the bottles by checking the convenient fill level cut out on the side of the 12 oz. bottles!

The Erwyn Dispenser: Important Features

Proprietary locking bar

The Erwyn Dispenser's locking mechanism securely and safely locks the units making them tamper & theft resistant. Special keys to open the units are provided.

INSTALLATION & OPERATING INSTRUCTIONS:

INSTALLATION:

Installation methods vary depending on the customer's unique circumstances.

- Install using a combination of screws, appropriately rated two sided tape and silicone glue.
- Installation materials such as screws, silicone glue and two sided tape are not included as each property has unique circumstances to consider when deciding on an installation method.

** Two sided tape is available and sold separately.*

OPERATING INSTRUCTIONS:

1. Use provided "Key" to unlock units.
2. Replace empty bottles with full bottles as needed.

Drift

Drift is inspired by that place in space & time where creativity happens.

Where we are both relaxed and mindful, detached and focused.

The place where our minds can drift and the current takes us to new possibilities. This place is in all of us and accessing it revitalizes us, even if its only for a few moments in the shower.
